MATHEMATICS OF THE USSR—IZVESTIYA

Том 51, №№ 1–3, 1987

Volume 30, Numbers 1–3 Pages 1–654

Volume Index of Authors

Abrashkin, V. A. Honda systems of group schemes of period p 419

Akhmet'ev, P. M. Splitting homotopy equivalences along a one-sided submanifold of codimension one 185

Andrievskiĭ, V. V. On approximation of functions by harmonic polynomials 1

Anosov, D. V. On the behavior in the Euclidean or Lobachevsky plane of trajectories that cover trajectories of flows on closed surfaces. I 15

Babin, A. V. and Vishik, M. I. On unstable sets of evolution equations in the neighborhood of critical points of a stationary curve 39

Bogomolov, F. A. The Brauer group of quotient spaces by linear group actions .. 455

Erëmenko, A. È. and Sodin, M. L. Proof of a conditional theorem of Littlewood on the distribution of values of entire functions 395

Gorbatsevich, V. V. On the number of Lie groups containing uniform lattices isomorphic to a given group 487

Isaev, A. V. An estimate of the dimension of the image under a holomorphic mapping of real-analytic hypersurfaces 89

Kapranov, M. M. On cuspidal divisors on the modular varieties of elliptic modules 533

Kharshiladze, A. F. The generalized Browder-Livesay invariant 353

Krylov, N. V. On the first boundary value problem for nonlinear degenerate elliptic equations 217

Leont'ev, A. F. On quasianalytic noncontinuability of a function given by a series of exponentials 245

Lychagin, V. V. Singularities of solutions, spectral sequences, and normal forms of Lie algebras of vector fields 549

Myasnikov, A. G. and Remeslennikov, V. N. Recursive p-adic numbers and elementary theories of finitely generated pro-p-groups 577

Napalkov, V. V. Spaces of analytic functions of prescribed growth near the boundary 263

Neretin, Yu. A. An estimate of the number of parameters defining an n-dimensional algebra 283

Nikol'skiĭ, S. M. and Lizorkin, P. I. Approximation of functions on the sphere... 599

Nikulin, V. V. On correspondences between K3 surfaces 375

Paramonov, P. V. On the possibility of division and involution to a fractional power in the algebra of rational functions 385
Piskarëv, S. I. Estimates of the rate of convergence in solving ill-posed problems for evolution equations 639
Sakhnovich, A. L. On a class of extremal problems 411
Sandu, N. I. Infinite irredundant systems of identities in commutative Moufang loops and distributive Steiner quasigroups 163
Sapir, M. V. Problems of Burnside type and the finite basis property in varieties of semigroups 295
Taĭmanov, I. A. Topological obstructions to integrability of geodesic flows on non-simply-connected manifolds 403
Timofeev, N. M. Distribution in the mean of arithmetic functions in short intervals in progressions 315
Tverskoĭ, A. A. Nonconstructivizable formal arithmetic structures 103
Tyrina, O. V. A new estimate for a trigonometric integral of I. M Vinogradov ... 337
Tyurin, A. N. Special 0-cycles on a polarized $K3$ surface 123
Uglanov, A. V. The Newton-Leibniz formula on Banach spaces and approximation of functions of an infinite-dimensional argument 145
Varchenko, A. N. On normal forms of nonsmoothness of solutions of hyperbolic equations 615
Vasilevskiĭ, N. L. On an algebra connected with Toeplitz operators in radial tube domains 71
Vol'berg, A. L. and Konyagin, S. V. On measures with the doubling condition .. 629
Zaĭdenberg, M. G. Isotrivial families of curves on affine surfaces and characterization of the affine plane 503

ABCDEFGHIJ-898
